Session: 1.00pm - 3.00pm

The Importance of Calmness, Silence and Stillness in Children's Lives

Today's world is full of the immediacy of a busy life and it is impacting on children. This seminar explores the what, the why and most importantly the how of calming our children. You will learn about self-regulation, how to calm hyperactive children and all about stress in children's lives. You will discover the cognitive, social and emotional benefits of silence and stillness and how it will bring you immediate benefits in your centre and school. Maggie also explores building mindfulness in young children, which will help with their ability to interpret and interact more positively with their world. (Linked to EYLF Outcomes 1,2 & 3)

9 Things

A back-to-basics guide to calm, common-sense, connected parenting Birth–8

More children than ever are arriving in our schools with one or more developmental delays and this creates a “gap” that is almost impossible to overcome throughout the school journey. Maggie explores the role of healthy parenting – with a back-to-basics, common-sense exploration of what is essential for babies and toddlers in order to allow children to be able to thrive and be ready for school and life. Maggie uses the metaphor of wise “Aunty Wilma” throughout this presentation to guide parents of children birth-8 while she explores the 9 Things that really matter when making decisions in children’s lives.
