

ECTA Gladstone Regional Group
present
Sue Lewin and Andrew King

We have been lucky enough to secure Sue and Andrew to present 3 workshops in Gladstone on **Saturday 5th September 2020.**
Kin Kora State School
Resource Centre
Hibiscus Ave

Workshop 1: Saturday 5th September
9.30-11

Dream, draw, design, make:-

From STEM to STEAM in early years' education

Sue Lewin and Andrew King

From Leonardo de Vinci to Steve Jobs, problem solving scientists have also been artists. This hands-on interactive workshop explores the integration of engineering and the arts in the Early Years' curriculum. Engineer and writer Andrew King and musician and early years' educator Sue Lewin combine their knowledge and experiences in their chosen fields to lead participants through practical activities, philosophies, songs and creative thinking for young children.

Workshop 2: Saturday 5th September
12-1.30pm Sue Lewin

Rhymers will be readers: using songs, rhymes and puppets to introduce children to the magical world of reading.

This hands-on, interactive workshop explores how by introducing children to interesting and stimulating rhyme experiences they will be encouraged to develop a life- long love of reading and stories.

'Rhymes provide comforting rhythms in children's early lives.....they are a natural extension of the heartbeat' Mem Fox

Sue Lewin is an early childhood teacher, musician and songwriter. She has produced eleven CDs for young children. Her latest collaboration is with engineer Andrew King:- a book and CD 'Young engineers- projects' which introduces young children to engineering through the arts, especially music-making:- STEM into STEAM.

Workshop 3: Saturday 5th September

2-3.30pm Andrew King

Cardboard Worlds

Use your imagination and your engineering skills to work together and construct new worlds using recycled cardboard and a few special tricks. Make your mark and share your ideas and the story will develop as you go.

Andrew is an engineer and teacher from Brisbane. With illustrator Benjamin Johnston, Andrew has created the 'Engibear' picture book series including three books:- 'Engibear's Dream', 'Engibear's bridge' and 'Engilina's train'. The books are designed to introduce children to engineering through friendly characters and story. Through examples and accompanying activities they are designed to encourage children to try engineering -to 'Dream, Design and Develop'.

Andrew's latest project, with musician and teacher Sue Lewin is an activity book and CD for educators, parents and children which melds engineering and music:- moving from STEM to STEAM, a concept about which both are passionate.

Numbers are Strictly Limited in each Workshop
COVID safe plans are in place

BYO Lunch or place an order (at own expense) for lunch from Food for Thought on the Saturday prior to workshop 1. We will have them delivered. Light refreshments between workshops 2 and 3 for those enrolled in both.
